The claim that all other baking powders other than the highly advertised war priced article will cause dyspepsia in hot biscuits. What if that man should die and his secret with him? What a calamity! 70,000,000 people and only one man to make a dyspeptic proof baking powder!

New Light on an Old Subject. Do you suppose for one minute the pure food law of Ohio would permit the sale of Star baking powder if it were impure? Thousands testify to its superior value by practical tests.

## HYDRAULIC FILTER.

Pure Water Used by E. J. Alderfer For Soda Fountain, Baking and Drinking Purposes.

Owing to the extremely warm and sultry condition of the weather during the past few days the soda fountains throughout the city have been sizzling and fizzing busily. A popular place at which cool, delightful and refreshing drinks are dispensed under an entirely new system is at E. J. Alderfer's confectionary and catering establishment, 160 Main St.

About three months ago, Mr. Alderfer secured from Crandall & Godley, New York, at a cost of \$400, an hydraulic filter and soda water charging apparatus. This is the only device of the kind in operation in the State. It is giving excellent satisfaction, and not only produces a superb quality of soda with phosphates and fruit juices, but also filters and purifies all the water used in the restaurant. There is nothing finer than a glass of soda drawn from this fountain. During its use Mr. Alderfer's business has increased about one-third and is still growing.

The hydraulic filter, in fact, the whole apparatus is a fine combination of technical mechanism. The drinks produced by it are purer and more delicious than those produced by other fountains.

The Alderfer establishment is also headquarters for the famous Verner ginger ale. There is no pepper in the drink to burn the throat—only the purest ginger.

Mr. Alderfer uses nothing but rock candy syrup and fruit juices in the dispensing of soda water.

## THE BOY PHENOMENON.

To Exhibit His Power at the Grand Opera House Wednesday and Thursday Nights.

The Boy Phenomenon, who is billed to startle this community Wednesday and Thursday nights by exhibitions of his magnetic power, is thus spoken of by the Philadelphia Times:

"The 'Boy Healer' held forth at the Academy of Music last evening. He had advertised to cure free of charge all classes of diseases, simply by the laying on of hands."

The doctor had a full house. It was packed from the stage to the uppermost gallery seat. Long before the hour set for the appearance of the "terror to pain and suffering" the doors were closed and hundreds were left standing on the sidewalk outside of the building. Nothing like it has ever before been seen. Some of the people were skeptical, others confident; some had sick friends, others were sick themselves; all were there to ascertain what he had to say or do.

He was not long in settling the question of his ability to do as he had promised—the rheumatic men threw aside their canes; they danced for joy at their changed condition; an aged lady gave thanks that her pain had been removed; a man afflicted with locomotor ataxia was greatly benefited, but this is usually looked upon as incurable. For forty-five minutes he plied his vocation and a dozen persons were benefited or cured."

Those on crutches and canes, the rheumatic and paralyzed, blind and deaf, of Akron and vicinity, are especially invited to be present and to be treated free of charge.

Dancing at the Gorge every week day afternoon and evening.

The man with the short neck jumped up and grasped him by the hand.

"I am delighted to meet you, sir," he said. "You are the first and only man I have seen yet who could take the right hold of this Philippine business and knock the daylight out of it!"—Chicago Tribune.

## HAD A SCRAP.

Bull Pup Was Ruled Out of It.

Two Litigants Pounded Each Other to a Finish.

There was nothing slow about the Galvin-Scully lawsuit in Justice Thomas' court this morning. The difficulty between the men was described in Wednesday's issue of the DEMOCRAT. The decision was awarded to Galvin.

As soon as Galvin and Scully reached the street, as they left the temple of justice, they immediately fell to scrapping, and before they could be separated had injured each other considerably. They will be arrested.

Several women were witnesses at the trial. Things were not harmonious among the witnesses and the women were separated. Standing outside the court room, three of the women vociferously denounced the necessity of their being called as witnesses on such a case.

"We're ladies," said one, "and to thunder with being hauled up here."

"I hate to be crowded out into the hall when I've got a whole handful of 'spenies,'" said a young woman to a DEMOCRAT reporter. "I'll be blamed if I don't kick the door in. If I've got to stay out here much longer."

Justice Thomas ruled the "bull pup" out of the evidence.

## UNJUST PROSECUTION

Of Grocer J. T. Diehm—Had Taken Down the Sign.

J. T. Diehm, grocer, 402 East Exchange street, thinks a gross injustice was done him by Assistant Pure Food Commissioners Martin Cowen and William Martin in causing his arrest and having him fined \$50 and costs for selling oleomargarine without a sign.

It is true, the sign was down when the commissioners entered the store. It had been taken down a short time before to permit a painter to paint the ceiling. Mr. Diehm has sold "leo" for 5 years and always has had the sign up. According to the facts in the case it is plain that prosecution was unjust.
